

JARREER SHEIKH

ML EXPERT

CONTACT

- +92 3343323656
- jareerfootball7@gmail.com
- Pakistan Karachi
- <https://github.com/Jarreer/JARREER>

SKILLS

- *Areas of Expertise:*
- **Machine Learning & Data Science:** Proficient in Scikit-learn, TensorFlow, Pandas, and NumPy.
- **Game Development:** Experienced with Unity and C#
- *Technologies and Languages:** Python, C#, Git, HTML, and CSS.

LANGUAGES

- English (Fluent)
- Urdu (Fluent)

PROJECTS

-  House Price Predictor, GitHub: Jarreer/house-price-predictor Built a regression model using Scikit-learn to predict housing prices based on multiple features. Handled data preprocessing, model training, and evaluation.

PROFILE

" • Machine Learning enthusiast and software developer with hands-on experience in Python and C#. Passionate about creating intelligent systems using Scikit-learn and TensorFlow. Skilled in writing clean code, building scalable solutions, and applying machine learning to real-world problems. Currently expanding expertise in game development and advanced AI

WORK EXPERIENCE

ML Intern — AQS Shipping Company 2024

Collaborated on internal tools involving automation and logistics prediction • • Built basic ML models for shipment classification and forecasting • Assisted in software workflow improvements using Python scripting

ABOUT MY WORK

Aspiring Machine Learning Engineer and Full-Stack Developer with expertise in Python, C#, TensorFlow, and Scikit-learn. I have successfully developed real-world projects, including stock forecasting and housing price prediction models. I am proficient in writing clean, scalable code and employing data-driven approaches to problem-solving. Currently, I am exploring Unity game development and advanced neural networks. Additionally, I am the creator of Jarreer, a personal portfolio for tracking my projects and achievements.
